Looking for caregivers of children with Down syndrome ages 6-18 to participate in an online research study about autism screening tools for Down syndrome. Child does not need to have autism.

Contribute to our efforts to customize autism screening tools for children with Down syndrome!

Participation involves

- Initial questionnaires about your child's development (2-3 hours)
- Follow-up questions 2 weeks later (30 minutes)
- Complete at your own pace across multiple sessions
- Family resource sheet & compensation provided
(Amazon cards: \$30 for initial, \$10 for follow-up)
